HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

N'Diaye , G. Orban de Xivry , S. P. Quanz , A. Reutlinger, G. Ruane, M. Riquelme, C. Soenke, M. Sterzik , A. Vigan  & T. de Zeeuw

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-021-21176-6>, published online 10 February 2021.

The original version of this Article contained an error in Fig. 1b, in which the units incorrectly read ‘AU,’ instead of the correct ‘au’. This has been corrected in both the PDF and HTML versions of the Article.

The original version of this Article contained an error in Fig. 1b. In the original version of Fig. 1b, astronomical unit was considered instead of arc seconds, which results in a factor of about 1.3 in the values of ‘periastron’, ‘maximum stable orbit’ and the ‘semi-major axis (a)’ of the system. In the original version of Fig. 1b, ‘periastron’ incorrectly read ‘8.6 AU’ instead of the correct ‘11.3 au’, ‘maximum stable orbit’ incorrectly read ‘~2.8 AU’ instead of the correct ‘~3.8 AU’, ‘semi major axis (a)’ incorrectly read ‘ 17.6 ± 0.1 AU’ instead of the correct ‘ 23.6 ± 0.1 au’. This information is ancillary; the results are not affected. This has been corrected in both the PDF and HTML versions of the Article.
