**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

### Correction to: Space Sci. Rev.

<https://doi.org/10.1007/s11214-021-00859-y>

The original article was published with a reference error. The correct reference information should be noted as described below.

Where the incorrect reference appears:

J. Klenzing, F. Simões, S. Ivanov, R.A. Heelis, D. Bilitza, R. Pfaff, D. Rowland, Top-side equatorial ionospheric density and composition during and after extreme solar minimum. *J. Geophys. Res. Space Phys.* **116**(12), 1–10 (2011). <https://doi.org/10.1029/2011JA017213>

The correct reference should be noted and replace with:

J.H. Klenzing, D.E. Rowland, R.F. Pfaff, G. Le, H. Freudenreich, R.A. Haaser, A.G. Burrell, R.A. Stoneback, W.R. Coley, R.A. Heelis, Observations of low-latitude plasma density enhancements and their associated plasma drifts. *J. Geophys. Res. Space Phys.*, **116** (2011). <https://doi.org/10.1029/2011JA016711>

Noting this, this correction stands to correct the original article.

**Publisher's Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
