**Key words.** astrochemistry – ISM: abundances – ISM: molecules – ISM: clouds – photon-dominated region (PDR) – errata, addenda

An error occurred during the production process. The right panel of Fig. 1 was the same as the left one. The correct Fig. 1 is shown here.

**Fig. 1.** Spectral lines detected in absorption towards OMC-2 FIR 4. The green vertical lines mark  $V_{\text{LSR}} = 9.3 \text{ km s}^{-1}$ , i.e. the systemic velocity of the  $\text{OH}^+$  lines.
