**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

**Correction to: Space Science Reviews (2022) 218:69**  
<https://doi.org/10.1007/s11214-022-00934-y>

Coauthor A.J. Halford was inadvertently left off of the author list. This was a mistake made by the corresponding author A.W. Breneman. Dr. Halford was an integral part of the team who contributed significantly to the writing of this manuscript as well as over the course of the Van Allen Probes mission. The corrected author list, affiliations, etc. are identical to the previously published, with the exception of the addition of A.J. Halford, who is added last on the list. The original article has been corrected.
